

# Sponsorship Opportunities

---

Friends of Over Primary School (FOPS), the school's charitable arm, are seeking support to install a new adventure playground at Over Primary School. The project will replace ageing equipment with an inclusive, high-quality play space that encourages physical activity, creativity, teamwork, and confidence for all pupils. Designed to be durable and accessible, the playground will help children across the school day and support wellbeing, resilience, and social development. As a well-used community school, the new playground will also provide lasting value for the wider local community, creating a safe and inspiring environment for play and connection.

We are offering sponsorship options to suit businesses and organisations of all sizes, from small local companies to larger employers and public bodies.

**Every contribution, big or small, will play a vital role in creating an adventure playground that helps all children at our school and those future generations to come.**
